Our Global Client Network

As we grow, we aspire to explore new geographies and devise new products for the global market.

A web based order traceability system

Our tracking app gives clients real time photos and videos of products from farm to port.

EasyTrack | Customer Testimonials

The tracking app system you installed is much appreciated and very very good! Unmatched with any other producer.

Very nice to see the status of the orders.

Appreciation & Thanks for the information.

This is very nice to be able to see the status of the orders on each step of the process.

We really like your Easy Track, great idea and Service.

I Appreciate the info the app provides.

Care at the Heart of Our Communities

We have adopted schools in **Valayamadevi village** and **Thulukkanur village** thereby providing access to quality education to children of farmers

Identification and
sourcing of good
quality seeds

Our in-house senior agronomist
educates farmers about the
best agro practices and latest
techniques to improve yield
and conserve water

Buy-back agreement
with the farmers
